Position Title: **Graphics Fronted Designer**

We are looking for a talented and creative Graphics & Frontend Designer to join our development team. The ideal candidate will have a strong eye for design, excellent technical skills, and a passion for creating visually appealing and user-friendly web and mobile interfaces. This role involves collaborating with our development team to design and implement engaging and functional user experiences.

Key Responsibilities:

- o Create visually appealing graphics, UI/UX designs, and web/mobile layouts.
- o Develop responsive and interactive frontend components using HTML, CSS, and JavaScript.
- o Ensure consistent branding across all visual elements.
- o Work closely with the development team to implement designs accurately.
- o Collaborate with the marketing team to create promotional materials and graphics.
- o Participate in brainstorming sessions to share new design perspectives and ideas.
- o Conduct user research and gather feedback to improve designs.
- o Create wireframes, prototypes, and mock-ups for new projects.
- o Ensure designs meet user needs and enhance the overall user experience.
- o Test and troubleshoot frontend issues.
- o Ensure designs are optimized for various devices and browsers.
- o Maintain high-quality standards and attention to detail.

Required Skills and Qualifications:

- o Proficiency in graphic design software (e.g., Adobe Creative Suite, Sketch, Figma).
- o Strong knowledge of HTML, CSS, and JavaScript.
- o Experience with frontend frameworks/libraries (e.g., React, Angular, Vue.js) is a plus.
- o Understanding of responsive design principles and cross-browser compatibility.
- o Strong portfolio showcasing previous design work.
- o Knowledge of UI/UX design principles and best practices.
- o Ability to manage multiple projects and meet deadlines.
- o

- **Education and Experience:**
  - o Bachelor's degree in computer science, or a related field.
  - o 2+ years of experience in graphic design and frontend development.
